## **PROTECTING YOUR HOME**

You call 911 and we come to your door.  
You can help keep our doors open .

Seriously, we need doors. Age and salt air have taken their toll on our doors. With an average cost to replace one door over \$2000.00 and over 20 to replace, you can see how quickly it adds up, and don't forget AMBULANCES need doors, too. We have 6 roll up bay doors which need to be updated as well.
